

Air 1 is a very part of my life. I listen to this station every single day. It is very helpful and uplifting for me to have this Christian music throughout my day. I have been a resident of Shasta County for 20 years now and we are very lucky to have this station in our community. It is great that we have the option to listen to spiritual songs that don't have sex, guns, drugs, or innapropriate language in their lyrics, like the other secular radio stations. Finally, I and so many people that I know believe that it is in the public's best interest to keep this Air 1 station in our community. People need positive and encouraring music in their lives. I hope you will take this comment into consideration. This Christian station has definitely made a great difference in me and my family's life.
